Collagen - 30 days supply  
DHC胶原蛋白-30天份

A third of the proteins in your body are made from collagen, and 70% of the dermis, which is related to your skin's suppleness, consists of collagen. But the body's production of collagen decreases with age, which leads to dry, sagging skin. As a low-calorie and easy way to replenish the body's collagen supply, DHC Collagen helps condition and firm skin with 2,050mg of high-absorbing, small molecule collagen peptides daily with vitamin B1 and B2 for enhanced effect. Highly recommended for those concerned about signs of aging such as rough skin and lack of elasticity.
